PROFESSIONAL PROFILE:

IT Support professional with over 4 years of experience providing technical and administrative support to clients and internal teams. Experienced in troubleshooting system and data-related issues, maintaining accurate documentation, supporting business operations, and communicating directly with clients to resolve technical problems efficiently.

Achieved D*D in BTEC National Extended Diploma Level 3 in IT, developing a strong foundation across IT systems, cybersecurity, programming, web development, and project management. Microsoft certified in Azure AI Fundamentals, with a growing interest in cloud technologies, AI, automation, and software development. Also experienced in website administration using Wix, Microsoft Office and Excel, financial administration, and managing multiple tasks to meet deadlines.

A motivated and adaptable IT professional looking to build on existing technical support experience while progressing into IT support, cloud, and technology-focused roles.

PROFESSIONAL EXPERIENCE:

Assistant Administrator | 2022 - 2024
Service Desk Analyst | 2024 - Present
Zinath Solutions

- Provide day-to-day technical and administrative support to clients and internal teams, resolving support tickets across system, data, and web-related issues.
- Manage user accounts and access permissions using Microsoft Entra ID, including onboarding, offboarding, and access provisioning.
- Administer Microsoft 365 environments via the Microsoft Admin Centre, handling mailbox management, licensing, and user configuration.
- Escalate complex technical issues appropriately while maintaining clear communication with clients throughout the resolution process.
- Document incidents, resolutions, and client information accurately to maintain a reliable knowledge base for the team.
